Assessment:

- In order to determine present levels of performance, initial assessment(s) in the area of need will be administered by EduKate, LLC.
- The assessment process is required in order to receive educational therapy support.
- Time for assessment may range anywhere between 3-6 sessions, and is dependent upon each individual.
- Preliminary assessment results are available upon request.

Initial Written Evaluations:

- While the information reported may contribute to an already suspected and/or foreseen medical diagnosis, as an educational therapist, I do not formally diagnose specific learning disabilities and/or other health-related impairments.
- Based on the initial information received, the written evaluation report is intended to provide you with a body of evidence that will be used to create specific intervention goals, suggested accommodations that would benefit your child's learning, and recommendations to help strengthen educational skills and abilities.

Session Appointments:

- Session meetings are 30-60 minutes in duration, unless otherwise agreed upon.
- EduKate, LLC will not be held responsible or liable for individuals before/after scheduled sessions.

Attendance/ Make-Up:

- In order to ensure individual growth and progress, new habits, mindsets, and routines need to be implemented, practiced, and developed. The rate of steady growth and progress is highly dependent upon regular attendance.
- Appointments are a contract for the use of EduKate, LLC's time. Scheduled sessions are considered standing appointments and they are a commitment on your part.
- There will be a full session rate charge for late appointments; missed appointments will be charged whether rescheduled or not.
- If an individual must be absent, the session should be rescheduled within the same week, unless otherwise agreed upon. It is your responsibility to schedule a make-up session during the same week.
